

VIRTUAL XPERIENCE

TRANSFORMING INDUSTRIES

INTRODUCTION

Our virtual event platform offers a good solution for organization, management and participation in virtual events. Users can register to access a lot of events, and also can create their own events with their activities.

PROBLEMATIC

organizing events can be inefficient because of coordinating some aspects is so hard. Another problem is the interaction of the participants in these kind of problems, this new platform has the solution of all these problems.

EVENT CREATION

Allow organizers to create virtual events with customizable characteristics such as date, hour, description and type.

CONTENT ACCESS

The participants can access to the event materials like videos, docs, slides, even interactive workshops.

DASHBOARD

The users can also watch their Dashboard, to interact with all their events and view next events and dates.

SECURITY

the user authentication is encrypted and the customization of the event prevents unauthorized access to unwanted users.
